Vehicle mileage	**0.55 €/km** excl. VAT	0.671 €/km incl. 22% VAT

Tolls, parking and accommodation at actual cost. Parts and materials separately; charges agreed before ordering.

Billing terms

Regular hours and overtime. Regular rates apply Monday-Friday, 06:00-22:00, for the first 10 hours of combined work and travel per day. Subsequent hours are overtime.

Travel and team billing. Travel time and mileage cover the journey from the company premises to the customer and back; any other starting point is agreed in the quotation. Labour and travel time are charged separately for each technician. Mileage is shared for the visit and is not multiplied by the number of technicians.

Overlapping rates. Only the highest applicable rate applies to the same hour; surcharges are not cumulative. The holiday rate applies on Slovenian public holidays or statutory non-working days, regardless of the country of service.

Billing unit. The billing unit is 60 minutes (1 hour). Billable labour and travel hours are determined from the service report or actual time spent. Specialist work is agreed in advance.

VAT and cross-border services

VAT-inclusive prices apply to consumers; the Slovenian rate of 22% is shown. Cross-border tax depends on the type of supply, place of taxation and customer status. The **reverse charge** is not intended for consumers and applies only where legal conditions are met. Business customers provide their VAT ID. The price or calculation method, including all taxes and additional charges, is confirmed when the service is ordered.
